

Bandawe Malawi update June 2020

Our next project at BAGSS is now underway with the transfer of the first tranche of funds.

Thanks to the monies you kindly raised, we are undertaking a full refurbishment, part rebuild and reroofing of what had become a very sub-standard, overcrowded hostel.

The girls are still absent with the school closed, but building is now allowed so it is a great opportunity to start the works without the headmaster worrying about where to rehouse the girls.

Here we see a photo of the full team including Ernest Chirwa (in pink shirt) the headmaster, his lady depute, the Presbytery clerk Rev Andrews Bipa and several teachers and the building team Chimugogo Building Ltd who won the tendered specification and who have done works at BAGSS previously.

The pictures below show the works in progress. Please no one ask about Health and Safety. It's Malawi !

Murray Hutchison
Mission Project Co-ordinator
