**Update on Work on South Transept -** I am delighted to report that all planned works have been completed successfully. Works included installation of the replacement Cross, masonry repairs including repointing with lime mortar to the gable wall and porch, cleaning of the sandstone, the removal of the plastic covers protecting the Baird stained glass window, the cleaning of the stained glass and fitting of new polycarbonate covers over the window. The scaffolding has also now been removed. The leaded glass in the swing doors between the chancel and vestibule has been removed, restored and refitted along with strengthening bars. We also took the opportunity to cut back the rhododendrons at the front entrance to the Church, cut back the rowan tree as well as giving other shrubs around the Session Room path a well needed trim.
